*Montana
Woodworks®*
"From The Mountains of Montana to Your Home"

Montana Woodworks® is located west of the Continental Divide, nestled between the foothills of the Rocky Mountains and the Purcell Mountain Range. The artisans there invite you to experience the beauty, longevity and craftsmanship of their indoor and outdoor furnishings.

In harmony with our responsibility to respect and maintain the environment, area woodsmen harvest the "standing dead" lodge pole pine used to make our products from nearby forests.

All Montana Woodworks® products are handcrafted in Montana using only solid, American grown wood. The artisans create each piece using tried and true methods such as "mortise and tenon" joinery, a technique used for millennia to join two separate pieces into one solid functional assembly that will for last a lifetime.

Whether you live in the big city or just up the road and around the bend, you are welcomed home by the timeless beauty and graceful charm of furnishings by
